This is a generated placeholder standing in for the real interview transcript. The real export ships one PDF per record in the pdfs/ folder, named <id>.pdf.

Summary: Call covering Tidewater Foods's demand signals from the largest customer segment. The expert compares current practice against peers in frozen seafood and flags what to watch next.

Q: How would you characterize the last two quarters? A: The expert describes a gradual normalization after an unusually strong prior year, with pricing holding better than volumes. Q: What should investors watch? A: Renewal outcomes in the largest accounts and any change in the discounting posture of the two main rivals.
